

## HG63 Technical Data Sheet

## Tamper Evident Tape

HG63 is a Tamper Evident Film That Can Readily Heat Seal to Bag Film. A Hidden Graphic (HG) Message Appears When the Product is Attempted to be Opened.

### Product Features

- Designed To Be Heat-Sealed Directly To HDPE & LDPE Films
- Available with a Serrated Edge to Prevent Lifting of the Tape without Tearing
- Back Surface of Tape Can Be Treated and Printed

<b>Tamper Evident Film Substrate</b>	
<b>2 mil (50 micron) HDPE Film</b>	
<b>Release Liner</b>	
<b>N/A</b>	<b>Widths</b>
<b>Adhesive</b>	<b>Slit to Order</b>
<b>None</b>	
<b>Adhesive Thickness</b>	
<b>N/A</b>	

### Notes:

\* The substrate must be evaluated by the converter in their process to determine acceptable tamper evident characteristics. Base properties, chemical slip additives, inks and adhesives can have adverse affects on the tamper evident properties
